

To whom it may concern,

I highly recommend Sculpture By Design to anyone who is seeking a truly unique and well crafted countertop. Sculpture By Design exceeded my highest expectations with the bathroom countertop they custom designed, created, and installed for me. Beginning with the design stage, and continuing on through installation, Sculpture By Design displayed innovation, creativity and professionalism throughout every step of the process.

I am thrilled with my bathroom countertop! Sculpture by Design truly captured the "beach feel" that I was hoping for with my bathroom remodeling project. Through the inclusion of colored bits of polished glass, the white concrete countertop appears laden with beach glass. It provides the perfect surround for the hand painted tropical sink. (I had been storing my unique sink for several years uncertain of how to proceed with it)

I highly recommend Sculpture by Design for anyone who is seeking a finished countertop product that is unique and well crafted. I am very thankful I went with Sculpture By Design in creating my newly remodeled bathroom.

A Very Satisfied Customer,
