Tony & Brenda,

I am writing this letter to the both of you to express Linda and mine's deepest appreciation and thanks for a great job done.

Several months ago, we purchased a RV site near Pequot Lakes, Mn. With the RV resort being brand new, we were able to bring certain amenities to our site. We immediately thought of a patio set and outdoor grill.

We begin looking at all of the traditional stores and outlets. After several weeks, while visiting our RV site, we stopped into your store. Seeing a custom outdoor grill being molded in your shop, Linda & I started thinking.

Working together, we came up with a unique concept. It was customized just for us, even to the point of several site visits to our RV lot. As the process continued, Linda & I were involved at every step. Even when everything was delivered, we were able to establish the exact location and angles in which the unit was set.

All in all, Linda & I just wanted to let the both of you know how much we enjoyed meeting you and working with you. In all we purchased a custom outdoor rock grill, concrete sculptured patio table, four chairs and a custom concrete side table. We can't be happier in the decision we made.

I hope that this letter finds the both of you well. Linda & I will most definitely be stopping back next spring to see you. We also owe you a big cook out!!!

Sincerely,

Larry & Linda Newell
